15. Special Handling Instructions and Additional Information

In case of accident contact Chemtrec at (800) 424-9300. Do
not breathe vapors. Do not wash into sewer or waterway. If
unable to deliver, return to generator. DOT Emergency Response
Guide # 60. Norris should bill United Pumping for the disposal charge.
16. United Pumping will bill Douglas.

GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

15. Special Handling Instructions and Additional Information

In case of accident contact Chemtrec at (800) 424-9300. Do not breathe vapors. Do not wash into sewer or waterway. DOT Emergency Response Guide #69. Norris should bill United Pumping for the disposal charges. United Pumping will bill Douglas.

GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.
